

Summer Camp of Young Feminists of Europe !

The World March of Women is an international feminist action movement connecting grass-roots groups and organizations working to eliminate the causes at the root of poverty and violence against women. We struggle against all forms of inequality and discrimination directed at women. Our values and actions are directed at making political, economic and social change. They centre on the globalization of solidarity; equality between women and men, among women themselves and between peoples; the respect and recognition of diversity among women; the multiplicity of our strategies; the appreciation of women's leadership; and the strength of alliances among women and with other progressive social movements.

In 2010, it was the Third International Action of the March. In Europe, actions have been organised in France, Basque country, Galice, Portugal, Greece, Switzerland, Turkey, Macedonia, Cyprus, Italy, in the Balkans ... the european action in Istanbul gathered 500 women from 22 countries.

In France as in Europe, we notice a neoliberal offensive, with the systematic break-in of public services to more privatization and militarization of the fortress Europe. Women are concerned firstly and their rights attacked. The growing poverty and inequalities weight mostly on women, still first responsible of families.

In view of this wave we want to get organized !

Feminist movements of the different european countries are divers, in their structures, organisation and courses of action. In all these countries, young women stand up and act to take over the feminist social movement.

We want to energize the network of young feminist in europe. We want to propose a space of meeting and political development, nice and friendly to prepare and lead together to the coming struggles.

We would like to organize an autonomous camp of young feminist, in France next summer. For about 10 days, it would be about knowing each other, exchange on our political visions at local, national, european and international levels, and express new wishes and projects. We would like to tackle topics as political repression of feminist and lesbian movements, merchandisation of bodies, religious integrisms, growth of destitution and poverty, militarization ...

We want to organize this event with you ! The project needs your proposal and motivation to come true ! We'll have to work together on topics we want to tackle. We'll have to find money to allow a lot of young feminist among europe to join the camp. We'll have to contact groups of young feminist in countries where the march is not organized yet. We'll have to work closely, learn to know each other to make an event like us.

This way, we wish to reinforce the european coordination of the World March of Women. Because the local and national struggles cannot be enough to oppose to the neoliberal global offensive, we want to reinforce the empowerment of the young feminists in Europe. We wish to be organized to be able to assume our rights, fight against injustices and build a world like us.

Women on the March Until We are all Free!
